

NOTE: AIS Port Settings

Port 2 must be changed to AIS 38400 on Cp300 and Cp500 to receive AIS targets from GX2100:

1. From the Chart page, press **[MENU]**. Move the ShuttlePoint knob to highlight **SETUP MENU** and the press **[ENT]** key.
2. Move the ShuttlePoint knob to highlight **ADVANCED SETUP** and press the **[ENT]** key.
3. Move the ShuttlePoint knob to highlight **IN/OUT CONNECTIONS** and press the **[ENT]** key.
4. Move the ShuttlePoint knob to highlight **PORT2 INPUT** and press the **[ENT]** key.
